the flag has dropped on ponderous journalism. The great, good-natured public will put up with much, but it will not have a duity magazine at the breaklast table. the "standing room only" card would have been put out. The evidence of the prospention seems to have been toward the theory that the thirty three wounds found on the body of the dead convict, Anderson, were homenolal, and to this end they have been working hard. They have thus for given unshaken testimony to the effect that Mooney had malice toward apply it once, a supplicant, will be supplied that Mooney had malica toward phod in the order in which applications the prisoner. They have proved that, if expert testimony be worth anything, no man could inflict the wounds upon himself, and by so do ing couldn't commit spicide; that the knife used was owned by Mooney, and that he had been making some and whether containing other ish or not, threats for some time past against as also their full address, Post Office, Anderson. To strengthen this evidence the lawyers for the prosecution determined to exhume the remains of the dead man, which they did, as heretofore reported in these dispatches. This morning the head of the nurdered man was brought into court on a platter. KNAVERY?

Some of our competitors are constantly try-ing to mislead the unsuspecting by quietly wilsporing in their cars, the sophistical theo-ry, that large expenses necessarily enhance rather than chappen meremadise. But this is fullacious, because all depends on the amount of business done in proportion to expenses.

LINN & SCRUGGS retail more goods that their dry goods stores in Decatur.

They are not obliged to pay THE RENT of SIX STORE-ROOMS. Nor the INSURANCE and TAXES on SIX stocks of goods. Nor as nuch for cleik his as these six stores would aggregate. But more than all, lank & stores would aggregate. But more than all, lank & stores would are not obliged to support EIGHT or TEN families. Nor divide the profits between RIGHT or TEN PARTNERS—as is the case with these SIX STORES—all of which would make a difference of twenty-dive or thirty thousand dollars a year in favor of LINK & SCHERGS.

But this is not all. LINNA SCRCEGG, in view of their barse purchases from first hands, save from twenty-five to thery thousand dollars more a year, which added to the amount savel in their expenses, will make a difference of PIFFY OF SIXTY THOUSAND DOLLARS A PIPTY OF SIXTY THOUSAND FUNCTIONS BUY YEAR; which smount LINE & Schrods BRV 10 (hose who purchase their goods of them.

Resides, another important item, is a shrink-age of values in goods, which would not be as great in one as in sty stores. If there be any to dispute our reckening, we should leight to hear from them, through the SAJE MEDIUM we adopt

It is easily understood how one farmer, cultivating 300 acres of land, can produce greater results than can 815 fatmers, each cultivating 50 acres of land; and this represents on case exectly. And when we assort that those who do not how goods it as stand with the class who pas lifty or sixty thousand dollars a year more for their goods than sold by us, we simply after what we are prepared to prove.

On business is good all the year round, which enables us to keep our stock tree of snot-word goods and give toom pations fresh new goods every day in the year.

THE HAMSHER WAGONS.

Few Facts about the Iron Felice Vehicle and the Factory, on Wood Street

One of the most successful industries that has been built up in Decatur, is the celebrated Iron Fellos Wagon Factory, at Nos. 194, 188 and 144 East Wood street, near the court house, of which our energetic fellow-citizen, Mr. David F. made a study of making serviceable farm
wagons, and by the introduction of the
iron felloes five years age, he atruck a
bonanza which at once placed his wagons
in general demand among observing
farmers who know a good thing when
they see it. It is not necessary to speak
in detail of the growth and extent of Mr.
Hamsher's business. Suffice it to any
that over 200 of his iron felloe farm
wagons are in daily use in Macon county
alone, and that in order to supply the
demand, he has enlarged his establishdomand, he has enlarged his establish-ment by making more room for the wagon industry and otherwise increased his
